Depending on the timing of the transactions and/or your billing cycle, these adjustments occur on different invoices. Debits are aligned with your billing cycle; whereas Credits are generated daily and not dependent on your billing cycle.

**Note:** Please do not send short (partial) payments. However, if you have already sent a short payment, please contact DHL Billing Customer Service so that a dispute can be noted on your account.

The example below and on the next page illustrates this process:

1. Customer is billed $100.00
2. Customer disputes $20.00
3. Customer is credited $100.00
4. Customer is re-billed $80.00
5. Customer pays DHL $80.00
